

Based in Dublin since 2011, Killick Aerospace is a distributor of new and used spare parts for Commercial Aircraft, supporting a global customer base, recently re-located to a new facility in Horizon Business Park in 2023. Killick Aerospace warehouses parts in Dublin, Dallas and Singapore in addition to multiple other locations globally.

As our business grows and we are entering into new markets, we have a requirement for additional Warehouse Operatives/Quality Inspectors to join our team in Dublin.

Killick Aerospace offers a competitive salary and benefits package, and the opportunity to work with a growing company in an exciting and competitive marketplace.

Job Description: Quality Inspector (Warehouse)

This position involves the physical handling of Commercial Aircraft Parts, and the Inspection, Receiving and Shipping at our Dublin Warehouse.

Requirements include the handling of Hazardous Goods and Forklift Operation (with Company provided training).

Inbound Inspection

Receiving Inspection of New/Repaired/Unserviceable Aircraft Parts.

Review/Accept/Reject Parts – Physical Inspection, Documentation & Traceability Review.

Ensure all inbound and outbound Parts meet Killick's Quality Requirements.

Warehousing & Cycle Counting

Storage of Parts in accordance with ASA-100 and AS9120 Standards.

Cycle Counting of Parts is accordance with Company requirements.

Outbound Inspection

Inspection of New/Repaired/As Removed/Unserviceable Aircraft Parts.

Review/Accept/Reject Parts – Physical Inspection, Documentation & Traceability Review.

Packaging of Parts to ATA-300 Standards.

Ensure all outbound Parts meet Customer Quality Requirements.

AOG Services

The role includes participation on an on-call rota to support critical customer requirements outside of normal business hours.

Candidates

Experience in a similar inspection role in the Aviation Sector preferred, but not mandatory.
