

EFFICIENCY
CONSISTENCY
QUALITY

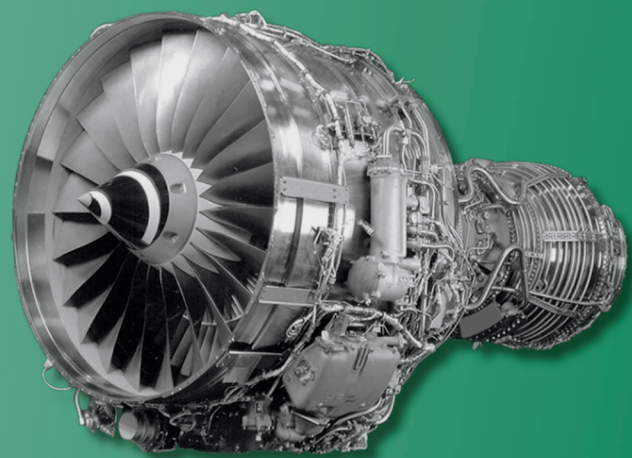

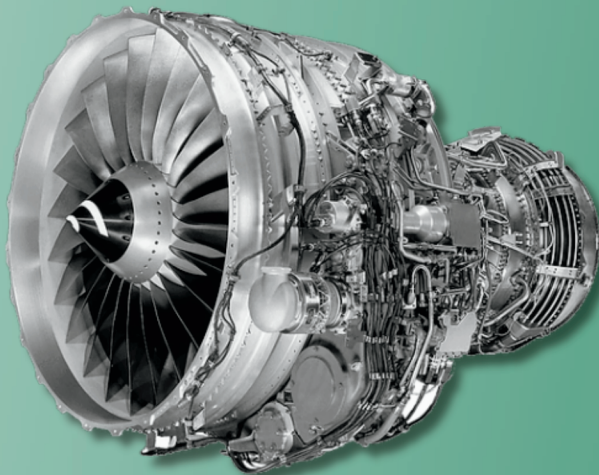

Your partner for engines.

Killick Aerospace is an active market participant in the sale, purchase, and lease of commercial jet engines and jet engine modules.

Through invaluable knowledge and working experience with CFM56-5B, CFM56-7B & V2500-A5, Killick Aerospace has become a pillar of engine supply and support within the aviation community.

Comprehensive BTB traceability managed by a highly experienced technical team and partnering with the best MRO shops in the industry means you can have complete confidence in traceability and quality.

Whether you're looking for piece parts and accessories to support a shop visit, or whole assets for lease or purchase, please get in touch to find out how we can support you.
